

CAPABILITIES STATEMENT

jmjagritech.com

JMJ AgriTech (a practice of JMJ Consultants, Inc.) delivers enterprise and government-ready agricultural technology integration — combining drones, AI, IoT, geospatial data, and enterprise systems into customer-owned operating infrastructure, backed by 20+ years of engineering and systems-integration experience brought to agriculture.

Company Data

- **Legal:** JMJ Consultants, Inc.
- **DBA:** JMJ AgriTech
- **UEI:** HK3PWP4XX17 | **CAGE:** 8FPK5 | **DUNS:** 117236507
- **Certifications:** SBA 8(a), MBE
- **HQ:** 4444 2nd Ave, Detroit, MI 48201
- **CA Registered Office:** Laguna Hills, CA 92637
- **Email:** info@jmjagritech.com | **Web:** jmjagritech.com
- **SBA Certified:** May 4, 2023 – May 4, 2032
- **SAM.gov:** Active **District:** MI-13

Core Competencies

Integrated, government-ready AgriTech for commercial, state, and federal programs:

- **Drones & UAV Platforms:** mapping, scouting, spray, survey, and rural-safety support.
- **AI & Crop Intelligence:** computer vision, disease detection, yield forecasting, and governed model operations.
- **Sovereign Data Fabric:** geospatial pipelines (PostGIS), sensor-to-ERP integration, customer-owned data.
- **Precision Agriculture:** variable-rate prescriptions, zone irrigation, and yield mapping.
- **IoT & Smart Irrigation:** sensor networks, edge gateways, controls, monitoring, and field support.
- **Integration & Training:** enterprise systems, workflow integration, FAA-aligned operating support, knowledge transfer

Differentiators

- **SBA 8(a):** set-aside & sole-source eligibility subject to opportunity requirements.
- **NDAA:** compliant configurations available for qualified opportunities.
- **CMMC:** 2.0 Level 1 (self-assessed); aligning to additional requirements as applicable.
- **Sovereign by Design:** customers retain ownership of operational data and architecture.
- **Integrated Delivery:** drones, AI, IoT, data, and enterprise workflows under one accountable team.
- **20+ Years:** engineering and systems-integration

Illustrative Program Profiles

- Planning scenarios only — not current/former customers, contracts, partnerships, or endorsements.
- **Government-ready agriculture:** secure geospatial data pipeline, documented controls, customer-owned deployment.
- **State agriculture:** aerial survey, analytics, compliance reporting, conservation-program administration.
- **Commercial agribusiness:** integrated aerial, AI, IoT, and ERP operations with agreed outcome baselines.

NAICS Codes

541512 — Computer Systems Design Services (Primary); 541715, 541690, 115112

PSC Codes

DA01, R425, R408
